13.1 Only compressed air are permitted as gas propellants. The filling stations must meet the requirements of the specific type of gas filling. Must have fitted the relevant manufactures safety devices that are not to be modified in any manner. The maximum pressure permitted for air systems is 4500 psi or any local legal requirements if lower or 3000 psi for rental tanks.

13.2 Air system must be originally manufactured to meet the international safety standards. Using of the air system with an expired certification date is strictly forbidden. Violation of this can lead to serious injury and possible death. Players caught using an expired tank will be suspended from the event.

13.3 High pressure air system can be covered by neoprene for safety reasons.

13.4 A Player can enter the field with only one air system and it must be connected to a marker.

13.5. It is strictly forbidden to throw marker and air system to the ground for any reasons. Violation of this will cause suspension of Player from the event. Thrown air system (with or without an attached marker, can cause the air system to develop cracks on its surface thus leading to air system explosion which is highly dangerous and in severe situations may cause death.

13.6 Players may use a single marker of .68 caliber, which consists of a single barrel and a single trigger system. Double action triggers are prohibited.

13.7 The definition of a trigger is the moveable lever or button that comes in contact with the finger. The cycling of a trigger requires an exertion of force by the finger on the trigger and a release of force by the finger on the trigger for each trigger cycle.

13.8 The marker must have a trigger guard that is unaltered from the manufacturer's original grip frame. The trigger guard must protect the trigger of the marker.

13.9 Markers with electronic firing systems must be locked in a tournament mode. The Player cannot adjust dwell, de-bounce or shooting mode while on the field. A marker capable of firing in other than tournament legal mode shall

be rendered incapable of firing in such mode in such a manner that requires the use of external tools or substantial disassembly of the marker.

13.10 All markers with any form of external velocity adjusters must be modified in such a way that the velocity adjuster is not readily accessible during the course of the game. All regulators require tournament caps such that they cannot be adjusted without a tool.

13.11 Players may not use cloth, neoprene or other blocking material to cover the paint loaders, barrels or markers.

13.12 No stickers of any form are allowed on markers.

13.13 A marker with no electronic components shall not fire more than one shot per press and release of the trigger and only fire a shot when the trigger is pressed.

13.13 Barrels may be equipped with porting, slots and/or rifling and inserts, but may not have a sound suppressor attached or integral to the construction of the barrel.

13.14 Only one barrel per Player will be allowed on the field.

13.15 Barrels with a control system modifying the ball curve are prohibited.

13.16 Barrels may not be covered with any kind of materials. Stickers are not allowed on the barrel.

13.17 Loaders cannot be clear in design and yellow in colour.

13.18 A solid colour loader is suggested but not required, solely to not impede with the Referees' judgment. A Head Referee has the right to ban a Player's hopper if he feels that the colours do impede with the Referees' judgment.

13.19 Loaders cannot be covered with any kind of materials. Violation of this may cause Player to be eliminated from the game. Stickers on loaders will not be allowed except for one 5 x 10 cm (2x4 inches) sticker on each side of the loader. Stickers cannot be in yellow colour.

13.20 Transparent lids on loaders are permitted.

13.21 Only one loader per Player will be allowed on the field.

14. GAME FORMAT

~~WPBO Mercy Limit Format is for Open Division and Division 3.~~

~~WPBO RaceTo-2 Format is for Division 4.~~

Open Division, Amateur Division and AGPIC Division will all be played in Race-to Format:

Open Division – Race3 Format, 8 minutes game time.

Amateur & AGPIC Division – Race2 Format, 6 minutes game time

14.1 Each match will consist of a series of points

14.2 Each match will start with a limited amount of game time.

14.3 Game duration will differ between leagues; the specific leagues governing body or tournament organizer will determine game times.

14.4 Game duration can vary between divisions.

14.5 Open Division, Amateur Division and AGPIC Division will be played in the following game formats: ~~and Division 3 will have a point differential mercy limit rule; the specific leagues governing body or tournament organizer will determine the exact mercy point differential.~~

Division	Game Duration	Mercy Limit	Coaching
Open Division	8 Minutes	4 points lead	No
Division 3	7 Minutes	3 points lead	No
Division 4	6 Minutes	N.A	No

Division	Game Duration	Race-To	Coaching
Open Division	8 Minutes	3	No
Amateur Division	6 Minutes	2	No
AGPIC Division	6 Minutes	2	No

14.6 Division 4 will be conducted in a RaceTo-2 Format with **no coaching** where the first team to score 2 points against their opponent will be the determined winner of the match.

15. SPLIT DECK SYSTEM

Events that use the split deck system will follow the normal WPBO Timed Race Format structure with the additions outlined below:

15.1 Teams A and B play a point followed by a break period. During the break period of teams A and B, Teams C and D will play a point.

15.2 A break period for a match (A and B) will be at least two minutes long (1 minute from entry of Teams C and D in previous game and 1 minute from entry into field when called upon).

15.3 The break time between the points of the two games being played in a WPBO split deck format is 1 minute.

15.4 In the event that either match (A and B) or (C and D) ends, the remaining match will continue with the standard 2 minutes break period.

15.5 Depending on the number of participating teams, there will be cases where affected teams do not compete in accordance to the Split Deck system. In these cases, affected teams will proceed the play the game based on their stipulated game time with a 2 minutes break period.

16. SCORE SHEETS

16.1 Any Referee or designated official (e.g. Score Secretariat) may complete a score sheet.

16.2 Any correction made to the score sheet must be initiated by a Head Referee unless the correction corrects an obvious mathematical error, the correction may also be initiated by the game secretariat or the score keeper.

16.3 The appointed representative, (not limited to) Team Captain, Coach, Player, Pit Crew, Supporters who is responsible to sign on the score sheet at the end of each game MUST check and validate the result which is recorded on the score sheet. Once the score sheet has been validated and signed by the representative, the score will stand and will not be modified except by the Head Referee.

16.3 In the event that one or both team captains do not agree with the contents of a score sheet and choose not to sign the score sheet, the Head Referee may decide whether the score sheet must be amended and/or validate the score sheet themselves and proceed with the conduct of the event.

16.4 A Head Referee or a Game Secretariat official may correct clerical or mathematical errors on the scoreboard at any time.

17. PLAYERS PIT AREA

17.1 Each team will be provided with a Players Pit Area adjacent to the field of play.

17.2 No person appearing on the roster of a team may employ an electronic (e.g. walkie talkie, mobile phone) or mechanical device or voice enhancing device like a megaphone to communicate with any other person during any of the team's points.

17.3. No communication is allowed by anyone from the Players Pit Area to the active field of play during any team points. Communication at the Referee's discretion may be determined to be non-verbal as in sounds, signals, physical gestures, etc.

17.4 Any such communication may result in a verbal warning or up to a 2 for 1 penalty. It is COMPULSORY for all related members of the team (e.g. Coach, Team Captain, Players, Pit Crews, Team Supporters, Team Visitors) to read and understand all tournament Rules and Regulations. The pit crews, team supporters and team visitors are considered as part of the team, and will be held responsible if there are any form of communication with Players during the games irrespective of their actual involvement during the tournament.

17.5 With the penalty to be assessed at the time of the infraction, the Referee making the call can impose the penalty on the nearest active Players of the team penalized.

17.6 Should a pattern of communication or reoccurrence of communication is determined, the team committing the infraction(s) is subject to match forfeiture.

17.7 Should there be deliberate incident of counter coaching (at any area of the event) which resulted in Players from an opposing team being penalized. The infringer (e.g. Coach, Team Captain, Players, Pit Crews, Team Supporters, Team Visitors) will be suspended and ejected from the event. If the person (e.g. Coach, Team Captain, Players, Pit Crews, Team Supporters, Team Visitors) is associated with any participating team, the team will forfeit the affected game point. Deliberate counter coaching in this instance refers to the violation of the no coaching ruling for all divisions where the infringer aims to misrepresent their opposing team.

17.6 Only authorized, rostered, and checked in persons will be permitted in the Players Pit Area. Teams are limited up to 3 pit crews members (inclusive of pod crews) in the Players Pit Area. Team with more than 3 pit crew members in the Players pit area will be asked to leave the Players Pit Area. Failure to comply after verbal warning will constitute to Players being eliminated in the field.

17.7 Circumventing staff (e.g. Organizers, Referees, Field Operators, etc) of the event may result in ejection from the event and even future events at the discretion of the event organizer.

17.8 The Players Pit Area should only have the following individuals: 1 x Coach, up to 8 or 9 Players and up to 3 Pit Crews.

18. COACH

18.1 Each team must have an appointed Coach who can also function as a Player of the team. Only the appointed Coach can throw the towel, ask for a timeout or ask for an explanation of a call (only to the Head Referee, only if Head Referee is off the field and only during breaks). The Coach is identified by an appointed person who wears a Coach I.D. card. The Coach I.D. card can be found in the Players Pit Area or handed over by the Game Secretariat.

19. PRE-GAME MARKER INSPECTION

19.1 All games will be preceded by a pre-game marker inspection, all markers (including unused markers of the team in the Players Pit Area) will be chronographed and checked for compliance to the marker rules. Pre-game marker inspection will be performed on the field before the scheduled games.

19.2 The Referees may take a Player's marker and inspect it for the following:

- (a) Presence of foreign matter in the barrel, feed port or loader (hopper);
- (b) Any device, part, item, adjustment or lack thereof which would enable a Player to increase either the velocity of the marker or change the shooting mode on the game field without resorting to the use of tools.
- (c) For marker bounce, runaway, velocity, rate of fire and illegal modes.

19.3 Marker Checking Procedure:

(a) "Runaway" test - All markers will be checked for "runaway" triggers. The marker will be fired rapidly. The testing judge, while rapidly firing the marker will suddenly cease to pull the trigger. Any marker that fires more than 1 additional shot after the final trigger activation, with a maximum delay of 100 ms (sound of possible shot after cease of trigger pull) will be deemed to be a "runaway" and will not be allowed on the field.

(b) Marker Velocity and rate of fire test - Markers can be chronographed anytime in the field and not limited to the start of the game. The maximum

velocity allowed will be 300 feet per second (fps). Markers rate of fire (rof) allowed will be 10.5 balls per second.

19.4 Players whose markers do not pass such inspection will be informed and will be given an opportunity to remedy the situation if the time permits without impeding the game proceedings.

19.5 Players who are unable to bring their markers into compliance with the rules on a timely basis, which allows the game to start on schedule, may choose to enter the playing field without their markers and play the game or stay in the Players Pit Area.

19.6 All markers are subjected to a more rigorous inspection at any time of the game at the discretion of the Head Referee to check for compliance with the marker rules.

19.7 Marker check can be done randomly or systematically to any player (alive or eliminated) as deemed fit and necessary by the referees and not subjected to any game circumstances.

20. GAME START

20.1 Team may start the point with up to 5 Players on the field. Game can commence with less than 5 Players at the start base.

20.2 Players start the point inside the playing field boundaries with the muzzle (tip) of their barrels (or touching with the hand if they play without marker) touching the start base.

20.3 Due to field limitation (in the case of events held at Red Dynasty Paintball Park), Players standing on the edge of the start base will be allowed to start the game behind the field boundaries (NOT behind the start base bunker). However, once the game has commenced with the start signal, Players (standing at the edge and outside of the field boundaries) MUST attempt to break into the field boundaries with their physical presence. Players whose unattempt physical presence (not limited to the act of running, shooting, diving, sliding, walking, standing and/or squatting) is outside of the field boundaries after the start signal will be eliminated by the Referee. All field boundaries will be regulated after commencement of the game, penalty will be awarded for any infringement such as stepping out of boundary which includes pressing the buzzer.

20.4 Any Player false starting by removing the tip of the barrel of the gun (or hand) from the start gate before the start signal is given, will NOT be

automatically pulled from the point, as long as they immediately return it to the start gate by touching back.

20.5 Even if the start signal goes before they have returned it, they may still return their barrel to the start gate by touching back and then continue in the game. If they fail to return the barrel to the start gate by touching back either before or after the start signal is given and break out to commence the game, they will be eliminated.

20.6 However, if a Player posts their marker (e.g. barrel pointing forward in the direction of opponent and/or oblivious to the start signal) or fires it before or after the start signal regardless as to whether they later touch back, they will be eliminated.

20.7 Players must carry all equipment to be used during the course of the game at the start of the game

20.8 Each team starts the first point of the match at the start gate on the same side of the field as the team's own pit area.

20.9 Teams will switch to the other side of the field that they start on after every point scored.

20.10 If a point is started but ends in a no point (neither team scores), the teams do not switch sides in the following point.

20.11 Each team will play the first point of the game on the side of the field where their pit is located. When the score of the both team adds up to an odd number, the teams will start on the far side of the field (1-0, 2-1, 3-0, etc.). When the score of the game adds up to an even number, the teams will start on the close (pit side) side (0-0, 2-0, 4-2, etc.). **Teams participating in Amateur Division and AGPIC Division will switch sides after each successful game point.**

20.12 Teams will start overtime on their pit side of the field.

20.13 A break period follows the conclusion of each point.

20.14 The game time stops counting down for the duration of the break period.

20.15 A standard break period is a minimum of two minutes (combination of previous field exit time and current field entry time).

20.16 A break period may exceed two minutes in a split-deck format mainly due to team's time out and technical time out.

20.17 The break time between the points of the two games being played in a split deck format is 1 minute. Playing teams will have 1 minute to enter the field and be ready at the start game for game commencement.

20.18 The official game time will be kept by the countdown timer on the electronic scoreboard and/or manually by timer by the Game Secretariat.

21. START PROCEDURE

21.1 When the electronic scoreboard system or audio speakers are not in used, game commencement can be given by a whistle or any other similar device. A clearly heard and recognizable signal (different from other sounds) should be given for the start of each point.

21.2 All the Referees will lower their hands to confirm the game commencement.

22. ON FIELD CHRONOGRAPHING

22.1 Chronographing on the field may be done at any time, at the discretion of any Field Referee to determine if a marker's velocity has risen above legal limits or the Rate of Fire Cap is exceeded. Field Referee can seek to perform on field chronographing in a manner which least interferes with game play at any time during the game.

22.2 Players with markers chronographed during a game at 300 feet per second or less and shoots less or equal than one ball in 95 ms (10.5 bps) will continue to play without elimination or penalty.

22.3 Players with markers which velocity is over 300 feet per second but less than or equal to 310 feet per second will be eliminated from play.

22.4 Players with markers which velocity is over 310 feet per second, but less than or equal to 324 feet per second will be eliminated from play and given a 2 for 1 penalty.

22.5 Players with markers which velocity is 325 feet per second or above will be eliminated from play and given a 3 for 1 penalty.

22.6 A Player on the field of play whose marker fires two shots at 10.6 to 10.8 bps will be assessed a 2 for 1 penalty.

22.7 A Player on the field of play whose marker fires two shots at 10.9 to 12.4 bps will be assessed a 2 for 1 penalty (assessed on the next point) and the point in which the infraction occurred will automatically go to the opposing team.

22.8 A Player on the field of play whose marker fires two shots above 12.5 bps will be assessed a 2 for 1 penalty (assessed on the next point) and the point in which the infraction occurred will automatically go to the opposing team. The Player who receives the penalty will be suspended for next 3 SPS games (not game points but fixtured games against opposing teams) and into the next SPS event if suspension penalty cannot be taken.

22.9 In all instances of on-field chronographing that results in a penalty, the Referee will show the chronograph result to the Player who was chronographed.

23. PAINT CHECKS

23.1 Paint checks are performed by Referees for the purpose of determining if a paintball has broken on and marked a Player.

23.2 Paint checks are performed by a Referee:

(a) When the Referee has observed a Player taking shots,

(b) When shots are directed into an area occupied by a Player that the Referee cannot directly observe,

(c) When the physical location that a paintball may have been broken on is not visible to the Referee,

(d) When the Referee is directed to do so by another Referee.

23.3 Referees may, but don't have to make a paint check after a Player has requested one.

24. TIMEOUT

24.1 Each team is entitled to ask for one timeout of 1 minute per match.

24.2 Appointed Coach must be the one to call timeouts. Timeouts can be made by informing either the Head Referee, the Game Secretariat or by using an electronic timeout system if available. The Coach is identified as the person who is wearing the Coach I.D. card.

24.3 Timeout cannot be taken in the last 10 seconds of the break time before the start of a point.

24.4 Teams may use their timeouts within the same break period.

24.5 A Timeout, if available can be used before the overtime period.

25. TECHNICAL TIMEOUT

25.1 Technical timeouts may be applied by maintenance staff or can be assigned by the Head Referee for technical reasons only if the technical timeout is deemed necessary.

25.2 Technical timeout can lasts as long as necessary for maintenance staff to solve technical problem on/off the field.

25.3 If technical timeout must be taken during 10 seconds, after technical issue is fixed, time counting automatically starts from 10 seconds.

25.4 Team Coach, Team Players and Pit Crews are fully responsible to ensure that all Players are ready to continue in the game after the technical timeout.

25.5 During a technical timeout, the Game Secretariat will make an official technical timeout announcement. Team Coach, Team Players and Pit Crews are to ensure that an official technical timeout call is awarded by the Head Referee or the maintenance staff before proceeding to address the technical issue otherwise all Players must be ready to continue in the game.

26. GAME INTERRUPTION

26.1. Game stoppages will only occur in case of an emergency, dangerous weather conditions, other “Acts of God” or a physical altercation on the game field.

26.2 In a situation where a false start happens due to a Referee mistake or miscommunication, the Head Referee will stop the game and a restart of the game will follow suit as if the game had never started.

26.3 In the case of game stoppages, Field Referees will note the locations of the Players at the time that the game is stopped. Once the game has been stopped, the Field Referees will insure that Players remain in those locations. Once the condition causing the game stoppage has been resolved, all the live Players are placed in the proper positions by the Field Referees, the Head Referee will then restart the game in accordance with the procedures specified in game start section.

26.4 The Referees calling "Time" will indicate game stoppages. Every Player must remain in the position he was in when the "Time" call is made.

26.5 In the event that a game has to be interrupted because of an emergency, the Head Referee will indicate to the Game Secretariat to stop the countdown timer. When the game is restart, the Game Start procedures will be used. Time will begin to run upon such restart.

26.6 In the event that a game has to be interrupted because of an emergency, the Head Referee may instruct all Player to place their markers on the ground until he deems that field of play is safe to continue.

27. BUZZER PUSH

27.1 There are buzzers installed at the start gate which may be placed on the start game or behind the start gate.

27.2 Any live Player can push the buzzer on the base.

27.3 When a Player pushes the buzzer on the opposite team's base and activated, the time on the electronic scoreboard will stop. If there is no ~~scoreboard~~ sound emitting from the buzzer, the Referees will make a call "Time!" and the time is stopped by the Game Secretariat. The game will automatically freeze and no Player is allowed to leave his position. The Player who pushes the buzzer will be paint checked.

27.4 During the chronographing for velocity infractions only one shot should be made. For the second shot made without the Referee permission, the Player will be eliminated.

27.5 If the Player who presses the buzzer is found to have a hit on him or happens to be over the velocity limit of 300 fps, penalties will be assessed and given to the Player. If there are live Players left on the field, the Head Referee will continue the game with a call "Game on!"

27.5.1 A Player is subjected to a paint check, if the Player who presses the buzzer is shot before or during a paint check process by a Referee with the game time stopped by the Game Secretariat or "Time" as indicated by a Referee. The Referee will have a discretion on whether the player is Alive or Eliminated depending on the completion of the paint check procedures and the cause of the hit before/during/after the buzzer is pressed.

27.6. The Player who pushes the buzzer will be checked for paint hits in any case, even if this Player marks himself as eliminated after the buzzer push, accidentally or deliberately.

27.7 If the Player ~~that~~ who presses the buzzer is declared clean by the Referee, a point will be awarded for that team.

27.8 If the Player who presses the buzzer receives a penalty and there are not enough Players from the team to pull for elimination, the result will be an automatic point for the opposing team. The team which was assessed the penalty will also have to start the following point minus the number of Players that will fulfil the penalty.

27.9 If the Player ~~that~~ who presses the buzzer receives a penalty and the team has the exact number of active live Players to fulfil the penalty, leaving no active live Players on the field, it will result in a “null and void” and no point will be awarded to any team, **provided if all opposing players are already eliminated.**

28. TOWEL THROWING

28.1 Anytime during the point, a team may decide to conceal the point by throwing in the towel and awarding a point to the opposing team.

28.2 If a Team Coach decides to throw in the towel, he/she must use the electronic “Towel Thrown” device provided by the organizer as the decision to conceal the game. However, if the electronic “Towel Thrown” device is not in used in due to faulty mechanism and/or unavailable, the notification to conceal the game (refers to throwing the towel) can be made by shouting the “Towel” call to the Game Secretariat with acknowledgement.

28.3 After the “Towel” call, the point will be automatically finished, and a point awarded to the opposing team. Referees will announce the “Towel” call loudly so that everyone is aware.

29. LAST 60 SECONDS RULE

29.1 The 60 seconds rule will be in regulation in last sixty seconds of the game time and overtime.

29.2 During this period any penalty of 2 for 1 Penalty and 3 for 1 Penalty stops the game time, and automatically gives point to the opposing team. The next point starts automatically according to the start procedure with penalty spill

over from the previous game if there are no more live Players to fulfil from the previous game.

29.3 In the last 60 seconds of regulation time, **if** a penalty is given, while the game time has been stopped **when a player presses the buzzer**, a point will not be awarded to the player's team due to this penalty, but other effects will apply **(e.g. penalty on player, reverse point, starting next game with lesser player)**.

29.4 If the game time is stopped for any reason and there are less than 5 seconds left on the game clock, the game will not proceed and the Head Referee will call for the game to end with current score standing.

30. OVERTIME

30.1 Overtime will be in effect during the knockout stages of the tournament (e.g. Quarterfinals, Semifinals, Finals). Teams will start the overtime period on their pit side of the field.

30.2 If two teams are tied at the end of a match's regulation time, a 5 minutes 5-on-5 overtime is played with a penalty spill over from the previous game, if applicable.

30.3 The overtime period is sudden death; the first team to score wins.

30.4 The "60 seconds rule" applies in the last sixty seconds of overtime (applicable ONLY for Overtime game and NOT in 1vs1 games).

30.5 If the 5 minutes overtime results in a stalemate, the two teams will each select a Player to compete in a 1vs1 game.

30.6 The game duration for the 1vs1 game will be two minutes; the first Player to eliminate the opposing Player or hit the buzzer at the opponent's base will win the match.

30.7 If both Players are still alive at the end of 2 minutes, the player nearest their opponent's start base will win the match. If Players are on the opposite "mirror" bunker of their opponents, the game will be considered as a "null and void".

30.8 If the result is undecided after the 5 minutes overtime game and the 2 minutes 1vs1 game, the team with the highest Game Point (and whichever applicable for tie breaker) scored from the previous round will proceed to the next round.

31. GAME END

31.1 A game will be considered officially over when the Head Referee (NOT by any Referees or the Score Secretariat) announces the result after the occurrence of any of the game-ending situations. However, Players and their equipment can still be inspected until they exit the field.

31.2 Point-ending situations are any one of the following:

(a) A buzzer is pushed by a Player;

(b) "Throw Towel" by opposite appointed Coach;

(c) A penalty (2 for 1 or 3 for 1) in the last 60 seconds of regular time or in last 60 seconds of overtime;

(d) If team starts to play with more players (Appointed Coach's responsibility to start the game with the right number of Players allow in the field) than set by rules or infringed penalties from previous game point;

(e) If the last Player gets penalized for 1 for 1, 2 for 1 or 3 for 1 penalty. In that case the point goes to the opposite team and penalty spill over to next game if applicable;

(f) If a Player gets penalized for 1 for 1, 2 for 1 or 3 for 1 penalty, and the team does not have enough Players to pull. In that case the point goes to the opposite team and penalty spill over to next game if applicable;

(g) If regulation game time comes to an end.

31.3 Players may not re-enter the playing field without the permission of a Referee.

32. HITS AND ELIMINATIONS

32.1 Definition of a hit - A Player is eliminated if a paintball fired from a marker by a live Player strikes that Player or anything he/she is wearing or carrying and such paintball breaks and leaves a mark, regardless of the size of paint mark.

32.2 If the paintball strikes the Player or anything he is wearing or carrying but does not break and leave a mark, such Player is not eliminated.

32.3 If a Player is hit and marked by a paintball shot by an eliminated member of the opposing team, such Player is not eliminated.

32.4 If a paintball strikes another object first and breaks upon that object before marking a Player or anything he is wearing or carrying, such Player is not eliminated.

32.5 If the Referee did not see the source of a paint marking a Player has on him that resembles a hit, such Player will be declared eliminated (penalties may apply). Generally, if the paint marking is reasonably solid, appears to be a direct hit - rather than smear, splatter, spray, paint from kneeled-on or sat-on paintballs, it will be considered as a valid hit.

32.6 In the event when two opposing Players are hit and marked simultaneously, or if the Referee cannot determine which Player was hit and marked first, both Players will be eliminated.

32.7 Referees will make every effort to wipe smear, splatter, spray, or paint from kneeled-on or sat-on paintballs off a Player at the time they are inspected. If a Player continues to play with such paint, the Player does so at the risk of being eliminated for wearing paint that resembles a valid hit whether if he/she is eliminated by the same or different Referee who performed the inspection.

32.8 Only Referees will remove invalid hits, except that a Player may remove an invalid hit on the lens of their goggle system with the permission of a Referee.

33. PLAYERS AND HITS

33.1 Players are responsible for becoming aware of hits at all times during the game. Failing to do so constitutes as playing on. Penalty can be awarded at discretion of the Referee.

33.2 If being hit a Player must immediately cease play and signal his elimination. Failing to do so constitutes as playing on. Penalty can be awarded at discretion of the Referee.

33.3 If a Player gets shot at and he is unable to perform a check for hit by himself at areas out of his visibility (e.g. visor, throat, back, harness, head, parts of the mask, etc) he must immediately cease play and call for a paint check by a Referee. Failing to do so constitutes as playing on, penalty can be awarded at discretion of the Referee. When calling for a paint check, the Player must cease all play.

33.4 Players who are in motion and get shot at may continue to the nearest cover whenever there is such cover between them and the nearest opponent. Otherwise they must immediately turn their motion away from the opposition

and stop. Upon arrival at such cover the Player must immediately check himself for hits. Shooting, posting to shoot, communicating, failing to immediately check for a hit and failing to immediately signal his elimination, if indeed hit, will constitute as playing on. Penalty can be awarded at discretion of the Referee.

33.5 Players who are hit in areas that can be self-checked must not call for a paint check. Calling for a paint check under such circumstances constitute as playing on. Penalty can be awarded at discretion of the Referee.

33.6 Players who get shot in non-abandoned equipment (except squeegees, pods, harnesses and loaders) to which they are separated less than 2 meters are considered hit.

The act of playing on for eliminated player includes but not limited to:

44.1.1 Paintball (simply called "paint") is a spherical gelatin capsule, filled with a non-toxic and water-soluble dye. This set must not deteriorate the environment where this activity occurs. It must also be entirely biodegradable in a short period of time under the specific meteorological standards where paintball has been played.

44.1.2 Marker body: object, containing paintball shooting mechanism.

44.1.3 Trigger: part of the marker, which Player activates to shoot a paintball.

44.1.4 Air system: portable container, used to stock the gas that the marker needs to shoot a paintball.

44.1.5 Loader: balls tank, fixed to the marker.

44.1.6 Pod: Plastic container to carry a limited number of paintballs.

44.1.7 Harness (backpack): Equipment to hold the pods.

44.1.8 Barrel: tube, where the ball is shot through.

44.1.9 Marker: paintball gun, composed with air system, marker body, barrel and loader (also known as hopper or feeder). Technical requirements related to paintball guns are detailed in a specific department. Every paintball gun must fit these requirements to be allowed for use on a field.

44.2.1 Markers are classified as Semi-automatic: Semi-automatic paintball guns are characterized by the fact that another paint ball is automatically fed after each shot. Shots cannot be automatic using a single pressure on the trigger.

44.2.2 Velocity (fps): The speed in which a paintball travels in the measurement of feet per second.

44.2.3 Ramping, Rate Of Fire – ROF (bps): quantity of paintballs shoot per second.

44.2.4 WPBO Timed Race Format: The goal is to touch the opposite base without being marked but you need to perform this goal multiple times in a certain set game time.

44.2.5 Obstacles are built from one or many parts. When an obstacle is built from more than one part, these parts then must be stuck together, so that it leaves as little free space as possible.

44.2.6 Safety materials: goggle and barrel sock are part of the safety material.

44.2.7 Protective gear: all the elements that Players wear in a clothing manner to protect the body.

44.2.8 Accessories: barrel cleaning tools, backpack (harness) and the paint ball pods.

44.2.9 Standard thickness for clothing and underwear is defined as a standard cotton piece not exceeding 150g/m².

44.3.1 Out of order gun should meet the following requirements:

(a) No paint ball in the marker (feeder included) or its loader.

(b) Air system is shut off when it is technically possible (e.g. "de-gassing") and no air pressure inside the marker.

(c) Electrical switch is on OFF position when it is technically possible.

(d) The barrel is not mounted on the marker or, if the barrel is mounted on, it is necessarily covered with a barrel sock. Any other tool or equipment cannot replace the use of a barrel sock (except for pump markers where barrel plugs are permitted).

44.3.2 False start can be considered if any of the following terms occur:

(a) The barrel is not touching the starting base at start signal or immediately after start signal, unless Player have been shooting or posting towards opponents between start signal and touching the starting base (so called touch-back).

(b) Any part of Player's body is in contact with the area (either ground or netting) outside of the field boundaries with the exception of games held in Red Dynasty Paintball Park (refer to section on GAME START).

(c) The Player has made one or multiple shot(s) directly towards the opposite between the 10 seconds signal and the start of the game.

44.3.3 Hit – Impact: Player is eliminated in case of being hit (personally or to any of his equipment) by a paintball, shot from paintball gun (with/without attached barrel) by a live Player. This is called a hit.

44.3.4 Elimination: Player is eliminated when the paintball left some paint on him (valid hit). Paint traces on the Players clothing that are not resulting from a hit are not considered as elimination. Referee can declare Player clean if he (the Referee) considers that the hit is not valid (e.g. Player is marked by eliminated opponent) and therefore must wipe the hit off as soon as possible.

44.3.5 Paint check is performed by Referees for the purpose of determining if a paintball has broken on and marked a Player. This action also can be done by Player himself, or he can ask a Referee when it is not possible to do it personally.

44.3.6 Clean Player: Player is clean when he has no valid hits.

- (e) Hampering a Referee in making a paint check or a call;
- (f) Discharging or degassing the marker or providing teammates with paintballs or equipment;
- (g) Absence of elimination signal (hand on head) by the Player.

The penalty for playing on is the removal of a team-mate in a 1 for 1 call, unless in the Referee's opinion such playing on has materially influenced the course of the game giving the offending Player's team an advantage, in which case the penalty for playing on is the removal of two team-mates in a 2 for 1 call.

44.3.8 Virtual elimination: a penalty is given to a non-playing person (e.g.: invalid Coaching).

(a) The Referee makes the visual signal for elimination but no real elimination can be done.

(b) Virtual eliminations are always accompanied by a penalty applied to one of the live Players and will be applied as if it was a standard penalty.

(c) Virtual eliminations should only be applied by the Head Referee.

44.3.9 Abandon: in order to abandon an object, or a part of it, a Player must not use or wear it anymore and must separate himself 2 meters from it.

44.4.1 Unsportsmanlike behaviour occurs when any gesture or talking demonstrates the loss of control in a sporting way. This includes, but not limited to, the willing to hurt, insulting words or gestures towards anybody (Players, Referees, organization representatives, spectators) and any kind of deterioration, etc.

(a) As a principle, the paintball Player behaviour must be blameless and be considered as an example of control, which is mandatory with the use of paintball guns.

(b) Any kind of misconduct will be considered as unsportsmanlike behaviour.
